To: The Board of Morrisons

We, the undersigned call on you to reconsider the future of the Morrisons shop at 10 Station Road, Radyr, Cardiff CF15 8AA.
The shop accommodates the village Post Office, which constitutes a critical service for the local community, particularly for its significant elderly population who depend upon it for essential daily transactions and access to key services. The loss of this facility would have a considerable and adverse impact on the accessibility of these services and the wellbeing of vulnerable residents.
Moreover, the shop is well positioned for long-term viability and growth. It is located within convenient walking distance of a substantial new residential development, with approximately 7,000 homes planned. This expansion will markedly increase local demand and footfall, providing a strong foundation for the shop to operate as a sustainable and thriving community asset.
In light of these factors, it is imperative that this valued local service is preserved for both current and future residents.
Contact Cllr Helen Lloyd Jones (Helen.LloydJones@cardiff.gov.uk) for further information
